

Material Safety Data Sheet

GOJO® Citrus Ginger Foam Hand and Showerwash

Identification of the material and supplier

Names

Product name : GOJO® Citrus Ginger Foam Hand and Showerwash

Product code : 5300-510
ADG : Not regulated.

Manufacturer : GOJO Australasia Pty Ltd Suite 106, 460 Pacific Highway

> St Leonards NSW, 2065 Australia

Telephone: +61 2 9016 3885

Emergency telephone

number

: (24 Hours): Tel: 1800 634 340, Fax: +61 2 9437 5571

<u>Uses</u>

Area of application : Consumer applications, Professional applications.

Material uses : Foam handwash

Product type : Liquid.

2. Hazards identification

Classification : Not regulated.

Risk phrases : Not classified.

Statement of : NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

hazardous/dangerous nature

Composition/information on ingredients

Mixture : Yes.

Ingredient name	CAS number	Concentration
glycerol	56-81-5	<10

Other ingredients, determined not to be hazardous according to Safe Work Australia criteria, and not dangerous according to the ADG Code, make up the product concentration to 100%.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First-aid measures

First-aid measures

Inhalation : No special measures are required.

Ingestion : Do not induce vomiting unless directed to do so by medical personnel. Get medical

attention if symptoms occur.

Skin contact : No special measures required.

Eye contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation

eyelids. Check for and remove any contact lenses. Get medical attention if irritation

occurs.

Protection of first-aiders

Advice to doctor

: No action shall be taken involving any personal risk or without suitable training.

: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Version: 1 Page: 1/5

Fire-fighting measures 5.

Extinguishing media

Suitable

: Use an extinguishing agent suitable for the surrounding fire. Use dry chemical, CO₂, alcohol-resistant foam or water spray (fog).

Not suitable

: None known.

Special exposure hazards

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products Decomposition products may include the following materials:

carbon dioxide carbon monoxide nitrogen oxides sulfur oxides

halogenated compounds metal oxide/oxides

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Accidental release measures **6** .

Personal precautions

: No special measures required.

Environmental precautions

: Dilute with plenty of water. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers

Methods for cleaning up

Small spill

: Absorb with an inert material and place in an appropriate waste disposal container.

Handling and storage

Handling

: No special measures are required.

Storage

: Store in original container, protected from direct sunlight.

Not applicable. Combustible liquid

8. Exposure controls/personal protection

Occupational exposure limits

Ingredient name	Exposure limits
glycerol	Safe Work Australia (Australia, 8/2005). TWA: 10 mg/m³ 8 hour(s).

Recommended monitoring procedures

: No special measures are required.

handling of larger amounts: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

Exposure controls

Engineering measures

: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Hygiene measures

: No special measures are required. However, in compliance with good industrial hygiene practice, exposure to any chemical should be kept to a minimum.

Eyes

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.

Hands

: No special protection is required.

Respiratory

: No special protection is required.

Skin

: No special protection is required.

Version: 1 Page: 2/5

Exposure controls/personal protection

Environmental exposure controls

 Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

9. Physical and chemical properties

Physical state : Liquid. [Clear./ Translucent.]

Colour : Green./Yellow.

Odour : Citrus. Floral. Spicy.

Not available. **Boiling point Melting point** : Not available. : Not available. Vapour pressure Flash point : Not applicable. Flammable limits : Not available. Vapour density Not available. pН 4.9 to 6 Not available. **Viscosity Auto-ignition temperature** : Not applicable.

Solubility

Water-soluble liquid

10. Stability and reactivity

Chemical stability : The product is stable.

Possibility of hazardous reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

Under normal conditions of storage and use, hazardous polymerisation will not occur.

Conditions to avoid : No specific data.

Materials to avoid : None known. May react or be incompatible with oxidising materials. May react or be

incompatible with reducing materials. Metal.

Hazardous decomposition

products

: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

11. Toxicological information

Potential acute health effects

Inhalation : Exposure to decomposition products may cause a health hazard. Serious effects

may be delayed following exposure.

Ingestion: No known significant effects or critical hazards.Skin contact: No known significant effects or critical hazards.Eye contact: No known significant effects or critical hazards.

Acute toxicity

 Product/ingredient name
 Result
 Species
 Dose
 Exposure

 glycerol
 LD50 Oral
 Rat
 12600 mg/kg

Conclusion/Summary : Not available.

Potential chronic health effects

Chronic toxicity

Conclusion/Summary: Not available.

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
glycerol	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-

Conclusion/Summary: Not available.

11. Toxicological information

Sensitiser

Conclusion/Summary : Not available.

Carcinogenicity

Conclusion/Summary : Not available.

Mutagenicity

Conclusion/Summary : Not available.

Teratogenicity

Conclusion/Summary : Not available.

Reproductive toxicity

Conclusion/Summary : Not available.

Chronic effects : No known significant effects or critical hazards. Carcinogenicity : No known significant effects or critical hazards. Mutagenicity : No known significant effects or critical hazards. **Teratogenicity** : No known significant effects or critical hazards. **Developmental effects** : No known significant effects or critical hazards. **Fertility effects** : No known significant effects or critical hazards.

Over-exposure signs/symptoms

: No specific data. Inhalation Ingestion : No specific data. Skin : No specific data. **Eves** : No specific data.

Target organs : Contains material which may cause damage to the following organs: eyes, stomach.

12. Ecological information

Ecotoxicity : No known significant effects or critical hazards.

Aquatic ecotoxicity

Product/ingredient name	Result	Species	Exposure
glycerol	Acute LC50 54 ml/L Fresh water	Fish - Oncorhynchus mykiss - 0.9	96 hours
		9	

Conclusion/Summary

: Not available.

Other ecological information Persistence/degradability

Conclusion/Summary : Not available.

Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
glycerol	-1.76	-	low

Other adverse effects : No known significant effects or critical hazards.

13. Disposal considerations

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Version: 1 Page: 4/5

14. Transport information

International transport regulations

ADG/ADR/IMDG/IATA : Not regulated.

15. Regulatory information

Standard for the Uniform Scheduling of Drugs and Poisons

5

Control of Scheduled Carcinogenic Substances

No listed substance

Australia inventory (AICS) : Not determined.

EU Classification : Not classified.

16. Other information

Person who prepared the

MSDS

: Atrion International Inc.
