PRODUCT USE

DFA 100 can be used through automatic scrubbers, trigger sprays, pressure washers, foam sprayers and mop & bucket.

Remove or cover food in the area. Remove excess soiling from the surface. If soiling is heavy, pre rinse the surface with warm water.

MANUAL USE: Dilute 1:40 with water. Spray onto surface and simply wipe with a damp cloth.

FLOOR CLEANER: Dilute 1:100 with warm water.

HIGH PRESSURE SPRAYER: Dilute 1:80 to 1:160 parts water, depending on the level of soiling.

SOAKING: Dilute 1:20 to 1:30 in warm water for soaking equipment parts, utensils and filters.

For best results all DFA100 to penetrate soil for a few minutes before rinsing. Rinse with water after use.
