SDS available from our website

Fragrance free

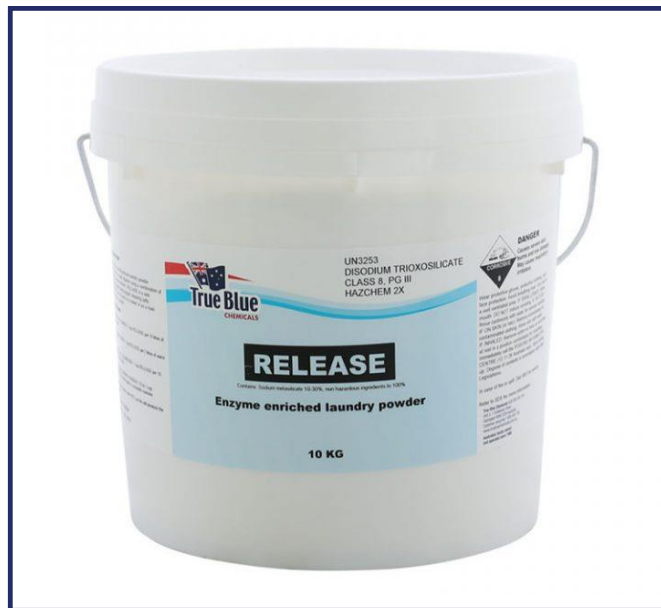

Appearance = White Powder

Shelf Life = 2 years

Pack Size = 10 kg

PRODUCT USE

RELEASE works best with warm water. Do NOT use in hot water over 50°C as this will denature the enzymes and inhibit top performance.

LAUNDRY PRE SOAK: Use 200g of RELEASE per 10L of warm water.

BLEACHING & WHITENING AGENT: Use 200g of RELEASE per 5L of warm water.

GREASE & OIL SOLUBILISER: Use 200g of RELEASE per 10L of warm water.

MAIN WASH POWDER: Use 100g to 200g of RELEASE in 4 to 15 kg machines.

MAIN WASH ADDITIVE: To boost main wash performance, use 50g to 200g of RELEASE depending on the size of the machine.

Quantities may vary according to individual requirements. Quantities may need increase if laundry is heavily soiled or in areas where the water is exceptionally hard.

ISSUE DATE: SEPTEMBER 2018
