

HYDRO

Section 1. Identification

Product identifier:	Hydro	Product Code:	HYDRO5
Other means of identification:	N/A		
Recommended use:	Oxygen Bleach Laundry Sanitiser.		
Supplier:	True Blue Chemicals		
Street Address:	2/1 Endeavour Road Caringbah NSW 2229	Postal Address:	PO Box 334 Caringbah NSW 1495
Phone No:	1800 635 746	Fax No:	02 9540 1983
Internet:	www.truebluechemicals.com.au		

Emergency Phone No - 13 11 26 - Poisons Information Centre

Section 2. Hazards Identification

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Classified as Dangerous Goods according to Australian Code for the Transport of Dangerous Goods by Road and Rail.

GHS Classification

Skin Corrosion - Category 1
 Eye damage- Category 1
 Acute Toxicity (Oral) - Category 4
 Acute Toxicity (Inhalation) - Category 4
 Oxidising Liquid - Category 2
 STOT Single Exposure - Category 3 (Respiratory)

Signal Word

DANGER

Hazard Statements

May intensify fire; oxidizer
 Harmful if swallowed or taken
 Causes severe skin burns and eye damage
 May cause respiratory irritation

Pictograms

Precautionary Statements

Keep away from heat and open flames.
 Store away from combustible materials.
 Wash hands thoroughly after handling.
 Wear protective gloves, protective clothing, and eye/face protection.
 IF SWALLOWED: Rinse mouth. DO NOT induce vomiting.
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.
 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Store locked up.
 Dispose of contents in accordance with State Legislations.

Section 3. Composition and Information on Ingredients

Chemical Name	CAS Number	Percentage (%)
Hydrogen Peroxide	7722-84-1	50
Water	7732-18-5	50

HYDRO

Section 4. First Aid Measures

- Swallowed:** Rinse mouth. DO NOT induce vomiting.
Immediately call the POISONS INFORMATION CENTRE (13 11 26 Australia only).
- Eye Contact:** Immediately rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. Call POISONS INFORMATION CENTRE (13 11 26 Australia only) for advice.
- Skin Contact:** Wash skin with plenty of water. Remove contaminated clothing and wash before reuse.
- Inhalation:** Move victim to fresh air. If symptoms develop, seek medical advice.
- Symptoms caused by exposure:** Irritating and burning sensation after contact.
- Medical attention and special treatment:** Eyes: If not washed immediately, irreparable damage is likely.

Section 5. Fire Fighting Measures

- Suitable extinguishing equipment:**
Use extinguishing media suited to the materials that are burning; eg: dry chemical, CO₂ or water spray.
- Specific hazards arising from the chemical:**
Carbon dioxide, carbon monoxide, and other toxic gases may be produced in the case of fire.
- Special protective equipment and precautions for fire fighters:**
Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire. Ensure no spillage enters drains or water courses.

Section 6. Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures:**
Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.
- Environmental precautions:**
Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or the local Council.
- Methods and materials for containment and cleaning up:**
Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect and seal in properly labelled drums for disposal.

Section 7. Handling and Storage

- Precautions for safe handling:**
Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing.
- Conditions for safe storage, including incompatibilities**
Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from strong acids and oxidisers. Keep containers closed at all times - Check regularly for spills.

Section 8. Exposure Controls and Personal Protection

National Exposure Standards: An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

Ingredient Name	CAS No	TWA (ppm)	TWA (mg/m ³)	STEL (ppm)	STEL (mg/m ³)
Hydrogen Peroxide	7722-84-1	-	1.4	-	-

HYDRO

Engineering Controls:

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling vapours or mists. Keep containers closed when not in use.

Individual Protection Measures:

Eye and face protection Safety glasses or chemical resistant goggles should be worn to prevent eye contact.

Skin protection Wear elbow length rubber gloves to prevent skin contact.

Respiratory protection If engineering controls are not in place, then an approved respirator in accordance with AS/NZS 1715 and AS/NSZ 1716 with a replaceable vapour filter should be used.

Thermal hazards Refer to Section 5.

Section 9. Physical and Chemical Properties

Appearance:	Clear liquid	Colour:	Colourless
Odour:	Slightly Pungent	Boiling Point:	Not available
Vapour Pressure:	Not available	Specific Gravity:	1.20
Flashpoint (°C):	Not available	Flammability:	Not Flammable
Water Solubility:	Complete	pH:	5.5 - 6.5
Auto-ignition Temperature:	Not available	Viscosity:	Not available
Relative Density:	Not available	Evaporation Rate:	Not available
Vapour Pressure	Not available	Melting Point/Freezing Point	Not available
Partition Coefficient: n-octanol/water	Not available	Upper/Lower Flammability or Explosive Limits:	Not available

Section 10. Stability and Reactivity

Reactivity: Very reactive with organic materials. May react with Aluminium to form hydrogen gas

Chemical Stability: Stable under normal ambient storage conditions.

Possibility of Hazardous Reactions: May form hydrogen gas upon reaction with metals

Conditions to Avoid: Avoid high temperatures (store below 30°C) and direct sunlight. Protect against physical damage

Incompatible Materials: Do not mix with other chemicals. Store away from flammable and combustible materials.

Hazardous Decomposition Products: Thermal decomposition may release toxic vapours.

Section 11. Toxicological Information
Information on Route of Exposure
Acute Toxicity:

Acute Toxicity Estimated (ATE) value: Harmful if swallowed or taken

Skin Corrosion/Irritation: Corrosive. Causes severe skin burns and eye damage.

Serious Eye Damage/Irritation: Corrosive. Causes severe skin burns and eye damage.

Respiratory or Skin Sensitisation: Not classified

Germ Cell Mutagenicity: Not classified

Carcinogenicity: Not classified

Reproductive Toxicity: Not classified

HYDRO

Specific Target Organ Toxicity (STOT) - Single Exposure:	May cause respiratory irritation.
Specific Target Organ Toxicity (STOT) - Repeated Exposure:	Not classified
Aspiration Hazard:	Not classified
Immediate, Delayed and Chronic Health Effects From Exposure:	No information available.
Other Information:	May intensify fire; Oxidiser

Section 12. Ecological Information

Ecotoxicity:	No data available
Persistence and Degradability	Product is expected to be readily biodegradable
Bioaccumulative Potential	Not expected to bioaccumulate
Mobility in Soil	No data available
Other Adverse Effects	None known.

Section 13. Disposal Considerations

Disposal Methods	Refer to State/Territory Land Waste Management Authority. Dispose of material through a licensed waste third party, in accordance with local regulations.
------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------

Section 14. Transport Information

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code for transport by Road and Rail.

UN Number	UN2014
Proper Shipping Name	HYDROGEN PEROXIDE, AQUEOUS SOLUTION
Technical Name	-
Transport Hazard Class	5.1, Subrisk 8
Packing Group	II
Environmental Hazards	None
Special Precautions for User	None
Additional Information	None
Hazchem Code	2P

Section 15. Regulatory Information

NICNAS	All substances are listed on the Australian Inventory of Chemical Substances (AICS).
Poisons Schedule (SUSMP)	Schedule 6 - POISON

Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.
