Section 5. Fire Fighting Measures
Suitable extinguishing equipment:

Use extinguishing media suited to the materials that are burning; eg: dry chemical, CO₂ or water spray.

Specific hazards arising from the chemical:

Carbon dioxide, carbon monoxide, and other toxic gases may be produced in the case of fire.

Special protective equipment and precautions for fire fighters:

Firefighters should wear full protective clothing including self contained breathing apparatus & chemical splash suit. Ensure no spillage enters drains or water courses. Remove from the vicinity containers not involved in the fire.

Section 6. Accidental Release Measures
Personal precautions, protective equipment and emergency procedures:

Avoid contact with skin, eyes and clothing. Use personal protective equipment. Ensure adequate ventilation.

Environmental precautions:

Do not wash into drains. If contamination of sewers or waterways has occurred, advise local emergency services.

Methods and materials for containment and cleaning up:

For small spills contain using sand or soil - prevent run off into drains or waterways. For large spills notify Emergency Services.

Section 7. Handling and Storage
Precautions for safe handling:

Avoid contact with skin and the eyes. When using, do not eat, drink or smoke. Wash thoroughly after handling. Wash contaminated clothing before reuse.

Conditions for safe storage, including incompatibilities

Store in a cool, well ventilated place out of direct sunlight. Keep containers closed at all times - check regularly for spills.

Section 8. Exposure Controls and Personal Protection

National Exposure Standards: An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

Ingredient Name	CAS No	TWA (ppm)	TWA (mg/m ³)	STEL (ppm)	STEL (mg/m ³)
Butoxyethanol*	111-76-2	-	96.95	-	2425

* Absorption through the skin may be a significant source of exposure.

Engineering Controls:

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling mist and vapour. Keep containers closed when not in use.

Individual Protection Measures:

Eye and face protection Not normally needed.

Skin protection Wear rubber gloves to prevent skin contact.

Respiratory protection Not normally needed.

Thermal hazards Refer to Section 5.
