If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor. Refer to Safety Data Sheet for more information.

DESCRIPTION

Piki Glass Cleaner is a streak free glass cleaner containing Ethanol and is infused with Kakadu Plum, Quandong and Desert Lime Extract. The desert Quandong is a unique Australian fruit often referred to as its Aboriginal name 'goorti' (Nurungga) or 'native peach'.

It is suitable for cleaning glass, mirror and chrome or can be used as a general-purpose spray 'n' wipe for the cleaning of laminates, marble and stainless steel. Piki Glass Cleaner does not contain ammonia and is safe to use on tinted window surfaces and plastic/poly glass and windows.

Piki (pronounced bick-ee) = Moon. We thank Kurna Warra Karrpanthi for allowing us to use Kurna language within our business. Our Quandong is sourced out of South Australia, our Kakadu Plum is supplied by the Bardi People of Lombadina in the Kimberley region of WA, while our Desert Lime is harvested in Western Queensland.

DIRECTIONS FOR USE

For optimal results use undiluted in a spray bottle and spray desired surfaces. Light Duty - dilute up to 100ml per litre (10:1). Wipe clean with a microfiber cloth. Rinse food contact surfaces with fresh

water before allowing food contact. Avoid spraying directly onto hot surfaces. If applying to hot surfaces a small amount of fresh water may be added to increase the drying time and allow for better cleaning.
