

POLYETHYLENE FOOD WRAP & FREEZER FILM

GLAD® Wrap

POLYETHYLENE FOOD WRAP

Seal in freshness and flavour.

GLAD® Go-Between

HIGH-DENSITY FREEZER FILM

Prevent food from sticking in the freezer.

GLAD® Wrap

- GLAD Wrap is premium in quality and performance.
- GLAD Wrap seals in freshness and flavour for longer term storage.
- ♦ Safe will not taint cheeses or oily foods and prevents odour transfer.
- PE barrier prevents freezer burn and is suitable for microwave usage.
- End-of-Roll reminder so you won't run out of wrap.
- An easy-to-remove Start-of-Roll sticker and a wide opening on the top of the pack offer easy access.
- Dispenser pack includes a traditional blade cutter and the Safe-T-Cutter a quick, efficient non-blade cutting tool that's easy and safe to use and reduces the risk of injury in the busy commercial kitchen or other professional environments.

GLAD® Go-Between

- GLAD Go-Between allows you to portion control your fresh or frozen food by placing sheets of GLAD Go-Between between single layers of steak, veal, chicken breasts or schnitzels, fish fillets or even rashers of bacon
- GLAD Go-Between is ideal to place between fresh fillo pastry sheets
- GLAD Go-Between is ideal for placing on top of food in bain-maries and mobile heated cabinets for protection, before serving
